

CONSTRUCTION

Strengthening the Bond Between Your Business and the Bottom Line

You make critical decisions every day in managing your projects and your people, but do you have the time to control the bigger financial management issues facing your business? Our goal is to provide sound advice to the general contractors, subcontractors and home builders we serve by **developing solutions for the more complex business management needs of the construction industry.** Our professionals have been serving clients in the construction and contracting business since the establishment of our firm. We provide **decades of experience with a vast array of knowledge** relating to the issues you face every day such as bidding, estimating, project financing, bonding, cash flow and cost recovery. We can assist you to minimize tax liability, maximize banking and bonding capacity, and help you plan for future growth. Our engagement team will quickly become your go-to resource for financial guidance and planning.

How Do We Serve **Clients in Your Industry?**

Assist with communication with bonding companies

Perform audits and provide reports increasing your credibility with bonding agents, surety writers and bankers

Consult on your license capacity with proper financial reporting

Provide year-end reporting requirements and calculations

Services We Provide

TURNAROUND SERVICES

ACCOUNTING & AUDITING

STATE & LOCAL TAXES

VALUATIONS

TAX PLANNING & COMPLIANCE

EXPERIENCE

We work with more than 100 contractors and subcontractors that build **locally, nationally and internationally.**

By proactively monitoring tax planning opportunities, we maximized tax savings for a client by electing "S-Corp" status at the appropriate time, **saving over \$100,000 in taxes.**
