## Our Audit Process is an Opportunity, Not a Burden

**BMSS offers you an engagement team** that is a consistent presence year after year, efficient with its work and committed to providing an audit experience that will leave you eager to do it all again. **We don't bring stress and complexities; we bring fresh ideas and enhanced efficiencies.** Our professionals receive specific annual training in employee benefit plan audits and will help you understand your plan, determine the most streamlined audit process **tailored to your plan** and offer recommendations for improvement. In addition to **meeting your federal reporting obligations** and **helping to identify issues that could lead to non-compliance penalties**, an employee benefit plan (EBP) audit helps provide you and your employees with the **peace of mind** that the funds will be available, and **your plan future is secure.**

The Department of Labor indicated in their report that a firm who is a member of the AICPA's Employee Benefit Plan Audit Quality Center (EBPAQC) **statistically has fewer generally accepted auditing standards deficiencies. BMSS has voluntarily been a member of the EBPAQC since 2012.** By joining, we have agreed to meet specific experience, training, and practice monitoring.
