

TECHNOLOGY & SOFTWARE

In Serving You, We Are Serving the Future

Technology and software drive the world around us, and innovation and imagination drive technology and software. At BMSS, **we embrace the entrepreneurial spirit**. We take pride in knowing that our clients are helping to shape the future of the world, and **we are committed to ensuring your continued growth and success**. From small business start-ups to well-established companies, **our professionals will help to move your company forward**. We understand complicated capital structures, stock option expenses and software revenue recognition. We know what it takes to raise venture capital and the importance of making sound strategic decisions. **We will concentrate on the taxes and financial health of your company while you focus on creating the latest and greatest for the new millennium**. Together, we can take big strides towards reaching your full potential.

How Do We Serve **Clients in Your Industry?**

Budgeting, forecasting and cash-flow modeling

Business valuation analysis for potential purchases or sales

Consulting on tax minimization, including research and development credits

System and Organization Controls (SOC) reporting

Software development capitalization

Services We Provide

ACCOUNTING & AUDITING

BUSINESS CONSULTING

VALUATION SERVICES

TAX PLANNING & COMPLIANCE

CITP

BMSS has **Certified Information Technology Professionals (CITP) on staff**. CITP is a credential from the AICPA that attests to a CPA's understanding of risk assessment, fraud considerations, internal controls, IT general controls, information management and business intelligence.

Not only have we grown our own business, but we have **successfully launched our own companies**, including Abacus Technologies.
